## **Liechtenstein vs. United Arab Emirates**

What an unfair match!

Fuerstentum Liechtenstein (FL) is a small country, going to be pooped, inflexible, with no influence both from economical and political side, exposed to foreign influence and thus may be put under pressure.

Taxation in FL is low, but is expected not to maintain its standards for the future. FL is going to meet the same fate as all countries which have been put under pressure by European Union or German tax authorities, which means that it's position as tax haven will decline.

We have no office in FL, but we may offer good contacts.

We have profound knowledge of FL banking system. We know how to transfer assets (in compliance with applicable laws and regulations), not via transport in a case.

UAE are young, dynamic, it's political and economical situation is considered to be save.

UAE are the most booming region all over the world, stable, under no influence of third par-ties, there is no reason for them to curtsey to anybody, moreover itself numbers among the big powers.

The oil reserves are expected to last for another 20 years. The economic growth is expected to 10% so they have nothing to fear from the future. Moreover they are dictating the crude oil price to the big powers.

During the last two weeks certain media highlighted that two countries are reported to be ex-tremely safe and not influenced by third parties, namely United Arab Emirates and Singapore.

Thus, we recommend not to play this unfair match, but to immediately allocate your assets in a save tax haven.

To invest your assets in UAE means:

1. High standards of bank security
  2. Low fees
  3. Excellent opportunities to allocate your assets (for more details see below)
  4. Tax free profits (legally tax free). Based upon the provisions of the applicable double taxation treaties with UAE you may transfer your capital gains from UAE to Germany or Austria, such gains being exempt from further taxation
- We recommend to invest your money in the most booming real estate market. Your invest-ment is guaranteed and will produce a yield of 20% p. a.

In order to invest in a professional manner you will need experts.
